

SAVE-THE-DATE: November 4th/5th 2024

We are thrilled to extend our warm invitation to you for the milestone 10th edition of the International Blood Group Forum in Frankfurt, focusing on molecular blood group typing.

For a decade now, this forum has served as a premier gathering for key opinion leaders in the field of immunohematology, providing a platform to delve into the latest advancements and discussions on RBC genotyping.

This year's forum will once again span two days at the congress center of the Inside Hotel Frankfurt Ostend.

Following the first day's sessions, we will gather for a come-together dinner, providing an excellent opportunity for participants to engage in lively discussions with both peers and speakers.

The attendance fee is 325 Euro net, covering catering services during the forum and the dinner event.

We eagerly anticipate a successful 10th Molecular Blood Group Forum filled with stimulating lectures and insightful discussions. Your presence in Frankfurt would contribute greatly to the event's success, and we hope to have the pleasure of welcoming you.

Warm regards, your inno-train team

REGISTER NOW!

We invite you to the 10th Molecular Blood Group Forum in Frankfurt. Interesting presentations will convey the current status of molecular blood group diagnostics. We look forward to your participation and a lively discussion.

There will be an opportunity to socialise with each other and the speakers over dinner. Please note that the number of participants is limited. The participation fee of 325 euros (plus VAT) includes catering and the dinner after the first

day. The awarding of continuing education points for the forum will be applied for at the State Medical Association. Please send us the completed registration form to the fax number below or by e-mail to info@inno-train.de.

In the event of cancellation by September 20th 2024, a processing fee of 50 % of the total amount due will be charged. For cancellations after September 20th 2024, we will charge the full participation fee.
